Challenges of the Maze Master
within The Iron Realm

The Challenge	*Chapter Issued*	*Notes, Requirements, Restrictions, Deadlines, etc.*	*Award for Success*	*Result of Challenge*

The Maze Master has Spoken. Will you meet his Challenge?

Character Eight will be called upon to complete various challenges throughout the course of the game – challenges, puzzles, and various feats of the intellect. The player is free to accept any challenge issued by The Maze Master and decline others at will. Each challenge issued will, once completed, result in an in-game reward as indicated by The Maze Master. Some challenges must be completed quickly while the opportunity to complete others may not arise for many episodes. If the challenge has not been answered when the time is up, then it is failed.

Upon the writ so offered here, the Player may note the Chapter during which the Challenge was offered as a reference. This allows the Player to review the details of the challenge at any time. There is also space offered for deadlines, requirements, notes, and any known restrictions. Record you also the exact reward and, finally, the Result of the Challenge – Failure or Success.

Should Character Eight perish, this writ may be carried on as a reference for future games. It is an obvious advantage to the next character to have a record of past challenges attempted along with all the known secrets, efforts, and their outcomes.

Journey you well, Traveler. In the Light and in the Dark. –The Maze Master
